

## GLOVE SELECTION CHART

## Glove Selection Guide

Use this checklist to choose the right type of material for the protective glove appropriate for your intended use. The Glove Selection Chart also provides advantages and disadvantages for specific types of materials used. Please refer to the specific glove specifications in this catalog and on our website for more detailed information.

**TIP**

### Glove Usage, Selection and Comparison Chart

Intended use	Glove Material	Advantages and Disadvantages
Food handling and very light duty cleaning. (Incidental contact)	Polyethylene	<ul style="list-style-type: none"> <li>• Very economical. Intended for single use, not for reuse.</li> <li>• Loose fitting. Easy slide on, slide off.</li> <li>• Good for very light duty clean-up, food and parts handling.</li> <li>• Little chemical protection.</li> <li>• Poor resistance to puncture and abrasion.</li> </ul>
Food handling, parts handling and light duty cleaning. (Incidental contact)	Vinyl	<ul style="list-style-type: none"> <li>• Easy slide on, slide off.</li> <li>• Good for light duty clean-up, food and parts handling.</li> <li>• Excellent finger sensitivity</li> <li>• Little chemical protection.</li> <li>• Poor resistance to puncture and abrasion.</li> </ul>
General cleaning. (Incidental contact)	Latex (natural rubber)	<ul style="list-style-type: none"> <li>• Good for biological and water-based materials.</li> <li>• Poor for organic solvents.</li> <li>• Little chemical protection.</li> <li>• Hard to detect puncture holes.</li> <li>• Can cause or trigger latex allergies</li> </ul>
General Cleaning, (Extended contact)	Nitrile	<ul style="list-style-type: none"> <li>• Excellent general use glove.</li> <li>• Good for solvents, oils, greases, and some acids and bases.</li> <li>• Clear indication of tears and breaks.</li> <li>• Good alternative to latex for those with latex allergies.</li> </ul>
Heavy Duty Cleaning. (Extended contact)	Neoprene	<ul style="list-style-type: none"> <li>• Good for acids, bases, alcohols, fuels, peroxides, hydrocarbons and phenols.</li> <li>• Poor for halogenated and aromatic hydrocarbons.</li> <li>• Good for most hazardous chemicals.</li> </ul>

### DISPOSABLE POLYETHYLENE GLOVES

Loose and bag-like, these gloves are economical, sanitary and watertight. They are ideal for food handling, precision parts handling, painting and polishing, general equipment clean-up and for skin irritating tasks. They are embossed and packed in 10 compact dispenser boxes of 100 per case.

PRODUCT (SIZE)	SIZE (THICK)	COLOR	PACK	PART NO.
