**GLYCERINE SOAP LOAVES**

Glycerine soaps keep all skin types feeling soft & clean. Unfortunately, in industrial soap-making, the glycerine is usually removed. Our pure glycerine soaps are uniquely artistic, wonderfully scented, and appreciated by all the guests. Our mild formula is ideal for all skin types.

Our glycerine soap loaves stand alone, and will intrigue both young and old guests. The colors in our soaps are amazing, variety is outstanding, and to top it off, they smell wonderful. We have sourced the best quality ingredients available to ensure you receive the best we can offer.

We are proud to say all our handmade natural soaps, perfumes and skin products are creatively designed - with you adding the final touches. Provided in loaves, our glycerine soap making system requires a soap cutting jig and cutter to enable you to proportion out the size of bar you wish to provide to your guests.

With the flexibility to proportion and custom wrap your own bars, our glycerine soap system offers you the valuable opportunity to offer these soaps over-the-counter as unique retail memories of your guest's stay.

**FORGET-ME-NOT – Guest Amenities**

Imagine: A guest arrives at your property late one evening. He wearily unpacks, thinking about the important 8:00 a.m. meeting the next day. Suddenly, he realizes he has forgotten a razor — PANIC! Shops are closed now and there is no time left in the morning to look for an open shop. Luckily, your hotel has a Forget-Me-Not program where you stock frequently forgotten items for your guests. One simple call to the front desk brings a razor to your guest's hands in minutes. The guest was saved the embarrassment of an unshaven face and will remember your thoughtfulness long after he has checked out. This situation probably happens every day in every hotel across the nation. It could have been shaving cream, a comb, a toothbrush, or deodorant. Any one of these forgotten items could spell disaster for your guests or, if you are prepared, could mean a loyal customer for years to come.

**GLASSWARE**

These heat-treated tumblers are created through a special heating and rapid cooling process after the glass is formed which increases resistance to thermal and mechanical shock. This secondary process on "blown" glassware is performed only on the upper portion of the glass where most abuse occurs. This helps keep the glasses chip-free and crack-free.

**PERSONALIZED MATCHBOOKS**

Matchbooks are an invaluable means of advertising – there is no competition from other mass media. Direct mail, the only other medium that offers similar advantages of personalization and selectivity costs many more times per impression than matchbook advertising. Why not put your sales message into your customer's pocket? Put them in your rooms, restaurant, bar and at the registration desk... or in the highway service stations, etc., to catch the traveler who is looking for a place to stay! Surveys have shown that 76% of all U.S. adults habitually pick up and carry matchbooks! Surveys have shown that 40% of people can recall – unaided – the message on the matchbook they are carrying! Match advertising is available in many different styles and designs to suit your taste. We've listed a couple of our stock design options here; however we also specialize in custom designs. BRS High Gloss White Board Matches are beautiful! Select from a variety of ink colors on a crisp white cover board. A protective lacquer coating gives a pleasing shine to the finished product. **BED FRAMES**

Heavy duty, high carbon steel construction makes our bed frames exceptionally strong. End caps protect bedding, extra wide and durable carpet rollers last longer and recessed legs stay out of the way of vacuums. No-tool assembly means that these frames are designed to be installed quickly and require no maintenance.

**LAMPSHADES**

It is prudent and cost effective to replace lamp shades rather than the whole lamp or chandelier. Shades that are faded, stained or show signs of wear will take away from your property's appearance in the eyes of the guests. Here we offer a small sample of what we can provide to you.
